THE CHALLENGE

Why Digital Transformation Can't Wait

Printing businesses that still rely on manual, disconnected processes lose orders, time and margin every single day. Here's what's holding your operation back.

Orders via WhatsApp

Unstructured chats lead to missed specs, lost files, and no audit trail for order history.

Manual Quotations

Slow, error-prone pricing sent over email or phone delays every deal's decision cycle.

Phone Follow-ups

Sales and production teams spend hours chasing status updates instead of closing new business.

Artwork Version Confusion

Multiple file revisions circulate with no single source of truth, risking costly print errors.

Payment Delays

Disconnected billing and collection processes slow down cash flow and working capital.

Production Visibility Issues

Customers and agents have no real-time view into where an order stands on the floor.

Manual Invoice Generation

Hand-built GST invoices consume admin hours and introduce compliance risk.

70% of order-processing time in traditional print businesses is lost to manual coordination between sales agents, designers and the production floor — time a connected digital portal gives straight back to your team.

ZENCYRUS

THE PLATFORM

Our Complete Solution

One connected portal that takes an order from first click to final invoice — built specifically for commercial, digital, offset and packaging printers.

Online Product Catalog
Included, ready to use

Product Configuration
Included, ready to use

Front & Back Artwork Upload
Included, ready to use

Credit Management
Included, ready to use

Online Payment
Included, ready to use

GST Invoice
Included, ready to use

Order Tracking
Included, ready to use

Repeat Orders
Included, ready to use

Notifications
Included, ready to use

ZENCYRUS

HOW IT WORKS

End-to-End Digital Workflow

A single, guided journey from requirement to delivery — every step visible, every handoff automated.

01 Agent Receives Customer Requirement

02 Design Approval

03 Online Product Selection

04 Configure Printing Specifications

05 Upload Artwork

06 Add Multiple Orders to Cart

07 Checkout

08 Wallet / Online Payment

09 Production

10 Packing

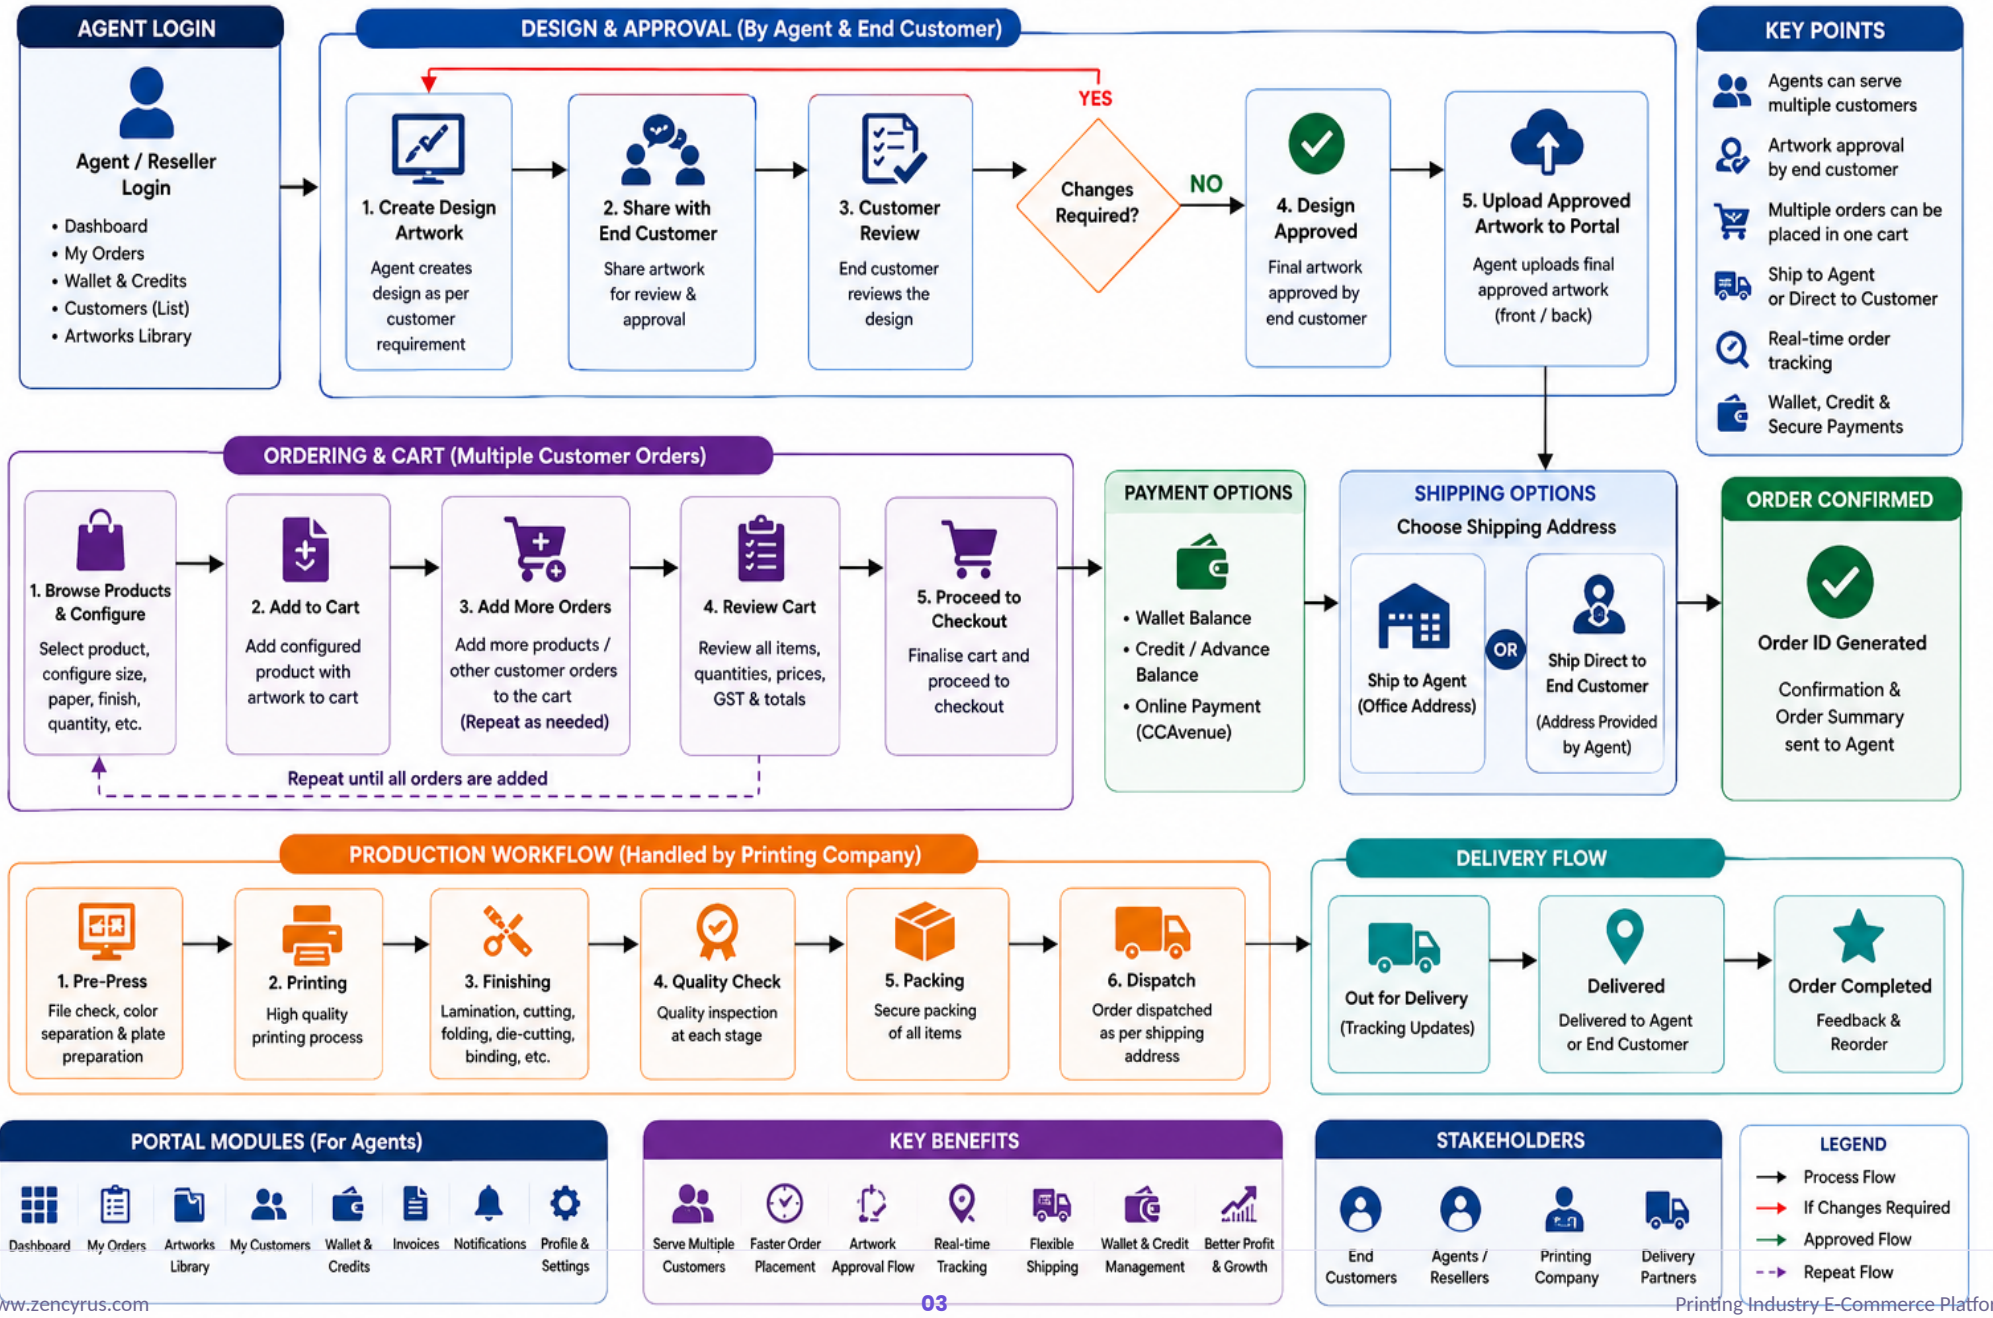

11 Dispatch

12 Delivery

ZENCYRUS

B2B PRINTING eCOMMERCE PORTAL

End-to-End Flow for Agents (Resellers)

ZENCYRUS

THE IMPACT

Business Benefits

Real operational gains, measured in time saved, orders processed, and customers retained.

Up to 70%

Reduce Manual Work

Automation removes repetitive quoting, data entry and follow-up tasks.

4X Faster

Faster Order Processing

From enquiry to confirmed order in a fraction of the traditional time.

100%

Real-Time Tracking

Full visibility into every order, at every stage of production.

24 x 7

Digital Order Management

Customers and agents can place and track orders any time, any day.

Improved Customer Experience

A faster, transparent, self-serve ordering journey drives higher repeat business from every printing customer on the portal.
